

“Turning data into insights for a better future.”

Education

Zhejiang University

MAJOR IN ANIMAL SCIENCE

Hangzhou, China

2022 – 2026

- **GPA: 87.09/100 3.92/4.3**
- **Coursework:** Calculus I & II, Biostatistics, Bioinformatics I & II, Python, etc.
- **Overseas Program:** Data Science with Python and Tableau (2025 NUS Summer Program)

Research Experience

Zhejiang University, Omics and Big Data Lab

RESEARCHERS

Hangzhou, China

Feb 2023 – Present

- **Co-first author, published in *Frontiers in Immunology* (IF: 5.9, Q1 in Immunology)**
“Pig jejunal single-cell RNA landscapes revealing breed-specific immunology differentiation”
doi:10.3389/fimmu.2025.1530214
- Led analysis of 26,000+ scRNA-seq profiles, discovering a novel cell cluster via advanced clustering and marker analysis; performed network analysis to quantitatively compare intercellular communication patterns.
- **Developed predictive model** for RNA expression from DNA by adapting pre-trained human models to pig genomic data; compared cross-species prediction accuracy and analyzed key bioinformatics features.

Awards & Honors

- Zhejiang University Scholarship-Third Prize 2023-2024
- Partner Pet Company Scholarship 2023-2024
- Scholarship for Excellence in Special Major 2023-2024
- Academic Excellence Award 2023-2024
- Academic Progress Award 2023-2024

Internship Experience

Yiwu Television

EDUCATION DATA ANALYSIS INTERN

Yiwu, China

Jul 15 – Aug 14, 2022

- Built a student progress tracking system using scientific data collection and analysis to generate weekly learning reports.
- Managed video and WeChat public accounts, analyzing backend metrics (views, likes) to optimize content strategy based on user engagement data.

Yiwu Writers Association

DATA ANALYSIS INTERN

Yiwu, China

Aug 1 – Aug 25, 2023

- Analyzed WeChat official account metrics and proposed topic/content/time optimizations to boost communication impact.
- Digitally built author pages and associated literary works; standardized content structure for improved retrieval and archiving.

Yiwu Fuda Experimental School

EDUCATION DATA ANALYSIS INTERN

Yiwu, China

Jul 2 – Jul 22, 2024

- Organized and integrated large volumes of student data to build a standardized database; applied clustering to generate detailed learner profiles.
- Visualized teaching performance and satisfaction survey data; applied text analysis to extract actionable feedback.

Hangzhou Kunpeng Business Management Co., Ltd.

BUSINESS DATA ANALYSIS INTERN

Hangzhou, China

Jul 2023 – Aug 2024

- Designed BI dashboards to monitor sales trends, product rankings, and promotion efficiency.
- Modeled customer behavior data (foot traffic, dwell time, purchase paths) to inform marketing and operational planning.
- Built predictive inventory models to optimize restocking decisions and improve supply chain efficiency.

Leadership & Social Impact

- **Student Union Member** 2022-2024
Promoted student events and coordinated welfare initiatives to enhance campus life.
- **Community Education Researcher** 2023
Investigated schooling access for children of migrant workers through field interviews and data collection.
- **Volunteer, Zhejiang University Children’s Hospital** 2023
Assisted pediatric data collection and early-stage healthcare data analysis to support child development studies.
- **Volunteer Service** 2022-2024
Accumulated over 88 hours of verified volunteer work via Volunteer Time App.

Technical Skills

- **Programming:** Python, R, Tableau, Excel
- **Analytical Methods:** Regression, PCA, clustering, model interpretation
- **Languages:** Mandarin (native), English (IELTS 7.0)
